### **SECTION C: Findings of Fact and Conclusions of Law**

1. Trowbridge owns and operates the Trowbridge Steel facility. The facility is located at 44886 Old Ox Road in Sterling, Virginia, and discharges storm water associated with industrial activity.

2. The Permit allows Trowbridge Steel to discharge storm water associated with industrial activity from the Facility to Indian Creek in strict compliance with the terms and conditions of the Permit.
3. Indian Creek is in the Broad Run watershed. DEQ has not monitored or assessed the received stream. The segment of Horsepen Run that Indian Creek flows into is assessed in the Draft 2012 Integrated Report as fully supporting the aquatic life and wildlife uses.
4. Part I.A.1.a of the Permit requires Trowbridge to perform and document quarterly visual examinations of the quality of the storm water discharging from the Facility's two outfalls.
5. Part I.A.1.b of the Permit requires Trowbridge to conduct benchmark monitoring of storm water discharges from the Facility's storm water outfalls for the presence of pollutants of concern once during each benchmark monitoring period and record benchmark monitoring results on a DMR.
6. Part I.A.5.a.1 of the Permit states that if benchmark monitoring results exceed the benchmark concentration value for that parameter, the permittee must review the SWPPP and modify it as necessary to address any deficiencies that caused the exceedance. Revisions to the SWPPP must be completed within 30 days after the exceedance is discovered. When BMPs need to be modified or added, implementation must be completed before the next anticipated storm event if possible, but no later than 60 days after the exceedance is discovered, or as otherwise provided or approved by the Department.
7. During a DEQ inspection of the facility and file review conducted on May 16 , 2013, DEQ staff documented the following compliance deficiencies with respect to the monitoring requirements of the Permit:
  - a. The quarterly visual examinations of storm water quality required by Part I.A.1.a of the Permit had not been performed for 2009, 2010, and 2012; and only one quarterly visual examination had been documented for 2011.
  - b. The benchmark monitoring of storm water discharges required by Part I.A.1.b of the Permit had not been performed for the July-December 2009 monitoring period, the 2010 monitoring period, and the 2012 monitoring period.
  - c. The DMRs for the 2011 monitoring period were submitted to DEQ and showed exceedances of benchmark concentration values for iron and aluminum. Investigations into the cause of the exceedance of benchmark concentration values for Total Recoverable Metals and corrective actions taken required by Part I.A.5.a.1 were not documented for the 2011 monitoring period.
  - d. The DMRs for the 2013 monitoring period were submitted to DEQ and showed exceedances of benchmark concentration values for Zinc, Iron, and Aluminum.

8. Based on the results of the May 16, 2013 inspection, the Board concludes that Trowbridge has violated Part I.A.1.a, Part I.A.1.b, and Part I.A.5.a.1, of the Permit as noted in paragraph 7 of this Order.
9. Part III of the Permit requires Trowbridge to develop and implement a Facility SWPPP according to requirements outlined in Part III of the Permit.
10. Part III.E of the Permit requires that a CSCE be conducted at least annually.
11. During the DEQ inspection of the Trowbridge Steel Facility and a file review conducted on May 16, 2013, DEQ staff documented compliance deficiencies with respect to the SWPPP requirements of the Permit, including the following:
  - a. The SWPPP required by Part III of the Permit had not been developed;
  - b. Annual comprehensive site compliance evaluations required by Part III.E of the Permit were not documented for the 2009, 2010, 2011, and 2012 monitoring periods; and annual compliance evaluation reports required by Part III.E.3 of the Permit have not been documented for the 2009, 2010, 2011 or 2012 monitoring periods.
12. Based on the results of the May 16, 2013 inspection, the Board concludes that Trowbridge has violated Part III, and Part III.E, of the Permit as noted in paragraph 11 of this Order.
13. DEQ NRO issued Warning Letters and a Notice of Violation for the violations noted above as follows: WL No. W2010-03-N-1032 issued March 23, 2010; WL No. W2011-03-N-1017 issued on March 31, 2011; WL No. W2013-03-N-1034 issued on April 2, 2013; and NOV No. W2013-06-N-0006 issued on June 17, 2013.
14. Va. Code § 62.1-44.5 states that: “[E]xcept in compliance with a certificate issued by the Board, it shall be unlawful for any person to discharge into state waters sewage, industrial wastes, other wastes, or any noxious or deleterious substances
15. The Regulation, at 9 VAC 25-151-70, also states that except in compliance with a VPDES permit, or another permit issued by the Board, it is unlawful to discharge into state waters sewage, industrial wastes or other wastes.
16. Va. Code § 62.1-44.15(5a) states that a VPDES permit is a “certificate” under the statute.
17. The Department has issued coverage under no permits or certificates to Trowbridge for storm water discharges associated with industrial activity other than under VPDES Permit No. VAR050906.
18. Indian Creek is a surface water located wholly within the Commonwealth and is a “state water” under State Water Control Law.

19. Based on the results of the May 16, 2013 inspection of the Facility, the Board concludes that Trowbridge has violated the Permit, as described in paragraphs C(7) and C(11) above.
20. On August 13, 2013, Department staff met with representatives of Trowbridge to discuss the violations.
21. In order for Trowbridge to return to compliance, DEQ staff and Trowbridge have agreed to the Schedule of Compliance, which is incorporated as Appendix A of this Order.

Nothing herein shall be construed as a waiver of the right to any administrative proceeding for, or to judicial review of, any action taken by the Board to modify, rewrite, amend, or enforce this Order.
6. Failure by Trowbridge to comply with any of the terms of this Order shall constitute a violation of an order of the Board. Nothing herein shall waive the initiation of appropriate enforcement actions or the issuance of additional orders as appropriate by the Board or the Director as a result of such violations.   - c. The Director or Board terminates the Order in his or its sole discretion upon 30 days' written notice to Trowbridge.

12. Any plans, reports, schedules or specifications attached hereto or submitted by Trowbridge and approved by the Department pursuant to this Order are incorporated into this Order. Any non-compliance with such approved documents shall be considered a violation of this Order.
